

A New Kind of House Call with HiDoc®

HiDoc® is HMAA's free telemedicine service (hosted by CloudWell Health) that provides members with virtual access to a local network of physicians and therapists, day or night.

HiDoc® is intended to work in tandem with your primary care physician (PCP) and not as a replacement. If you do not have a PCP, HiDoc® also offers primary care services. Consultations are confidential and secure, and a HiDoc® telemedicine visit has **no out-of-pocket cost!** Skip the waiting room and speak with a doctor usually within 30 minutes from anywhere, or schedule an appointment for a later date and time.

“ The doctor was able to assist me by phone and was very helpful and courteous. He even educated me about my condition and was able to call in a prescription at a pharmacy convenient for me. I'm so glad I went this route instead of the hassle of trying to get into a doctor's office.
